

Our 3 Favorite Organizing Tips

- 1. Give back by donating.** Keep a small bin or bag for donations in all your clothes closets. When an item no longer fits or you no longer like it, place it in the donate bag. When it's full, donate it!
- 2. Be realistic.** The clutter did not happen over night. If it seems overwhelming and you don't know where to start, then start out small. Begin with a junk drawer. Gain confidence and then begin tackle larger sections of your home.
- 3. The times they are a changing.** Technology changes so fast, items quickly become obsolete. Donate old devices to a local shelter or to an organization where students are taught to repair them.
